Dear Ken,

On behalf of the Geology classes at Lawrence Tech, I want to thank you for taking the time to give them a tour of your facilities. I liked the way we started in the warehouse and moved from there. It saved time. I also liked the display of Sedimentary rocks and slate you laid out in a separate room.

Student responses were commendable and found it instructive and educational. There were many positive comments on your patience and knowledge of the business.

All the best to you and your colleagues at Booms Stone for making this visit possible.

Sincerely,

Dave Thomas
